DeLonghi

Better Everyday

coffee excellence

De'Longhi bean to cup coffee makers provide the ultimate coffee experience, the perfect Italian espresso in the comfort of your own home. All your favorite drinks, whether an authentic ristretto or a delicious cappuccino, are served to an exceptional standard, just like a Barista.

As a global leader in espresso coffee makers, our experience and know-how guarantee the highest quality coffee beverages with just one touch.

Beans are freshly ground by the integrated grinder and the professional brewing unit can prepare a wide range of espressos and many other beverages such as milk-based drinks, from cappuccino to latte macchiato and flat white, to always satisfy your tastes. The exclusive LatteCrema System delivers a dense and creamy milk froth with a silky smooth texture never tasted before.

*a multi-sensorial
experience*

Coffee time becomes a truly extraordinary multi-sensorial experience thanks to our De'Longhi PrimaDonna S Evo. Its full metal body with an elegant and sophisticated design is perfectly combined with the best user-friendly technology which can turn your daily routine into a delightful coffee tasting experience.

*your touch,
a caress
for my soul*

*Just one touch
to create a masterpiece*

Your chosen coffee beverage can be enjoyed with just one single touch or through the quick and easy to use Drink Menu presented on the intuitive LCD display.

From an authentic Italian Espresso to a delicious Latte Macchiato, PrimaDonna S Evo can deliver up to 14 authentic recipes and brew 2 cups of coffee at a time with the same outstanding result.

PrimaDonna S Evo can also be programmed remotely with the dedicated De'Longhi Coffee Link App, which allows you to create then save your unique recipes and even deliver your beverage through you mobile device.

is my daily
kickstart*

Listen to the sound of fresh beans grinding

With PrimaDonna S Evo the sound of freshly ground coffee beans will arouse your taste buds. A fine and even grind is an essential element in extracting the best coffee aroma and our conical steel grinders are calibrated with 100% accuracy and tested to guarantee the perfect coffee powder is produced.

Only the freshest brew

The "just ground" method enriches the flavor of excellent espresso ensuring only the required quantity of coffee is ground in order to preserve the original aroma. The beans are freshly ground every time you prepare a coffee drink. The grinding level can also be adjusted according to your personal taste and preferred coffee blend. Thanks to our special Tubeless System the amount of ground coffee left in the grind circuit is reduced to a minimum so only freshly ground coffee is used to brew your espresso.

*smell the
unmistakable
scent of coffee*

Enjoy the distinctive aroma of coffee from the moment the beans are crushed to the moment the espresso flows into your cup. PrimaDonna S Evo is equipped with a patented brewing unit which can dose and tamp the powder just like a professional Barista.

This exceptional method provides the optimal infusion pressure in every brewing cycle resulting in the extraction of a perfect creamy, dense and aromatic coffee. The De'Longhi patented brewing unit has an adjustable chamber able to hold different quantities of coffee powder, ensuring a perfect in-cup result every time.

the
unforgettable
taste of our
first kiss...

A close-up photograph of a silver De'Longhi espresso machine. Two streams of dark coffee with a thick, light-brown crema are being dispensed from the spouts into two clear, double-walled glass cups. The machine's body is metallic and has a clean, modern design. The background is softly blurred, showing hints of a bright, outdoor setting.

De'Longhi

*Enjoy the
perfect taste*

- Compact with a nut colour crema
- Balanced and long lasting taste
- Dense and rounded body
- Rich and roasted aroma

PrimaDonna S Evo incorporates all the experience, know-how and technology of the world leader in espresso coffee makers to guarantee each step of coffee preparation is carefully executed.

of pleasures*

*Creamy and dense froth
Right balance between foam and liquid
Right temperature
Long lasting pleasure*

*With the unique LatteCrema System, PrimaDonna S Evo always ensures
a dense and creamy froth and a silky smooth texture for your cappuccino
and all your coffee-based milk drinks.*

LatteCrema SYSTEM

The De'Longhi LatteCrema System technology can mix steam, air and milk in the correct proportions to always deliver best in class foam for all of your favourite coffee-based milk drinks.

the perfect density

LATTECREMA SYSTEM DELIVERS MILK FROTH WITH PERFECT BODY, COMPACT AND SOFT, WITH THE OPTIMAL "MICROBUBBLE" TEXTURE

the perfect creaminess

LATTECREMA SYSTEM ALWAYS SERVES THE PERFECT PROPORTION OF LIQUID AND FOAM RESULTING IN A SMOOTH AND CREAMY DRINK

the perfect temperature

LATTECREMA SYSTEM DELIVERS EVERY CUP AT THE PERFECT TEMPERATURE

... until the last drop!

THANKS TO LATTECREMA SYSTEM, THE MILK FOAM IS LONG LASTING SO THE PLEASURE STAYS ... UNTIL THE LAST DROP

THERMAL DOUBLE WALL

One of the secrets to serving a great foam is to use cold milk. The double wall has been designed to keep milk at an ideal temperature for longer.

CONVENIENT

Carafe can be stored in the fridge to keep milk fresh when not using it.

my MENU

easy to use, satisfying different tastes

Be astonished by the numerous customisation possibilities of PrimaDonna S Evo. Each beverage can be easily customised to better suit your individual taste. Thanks to the My Menu button you can set and save your favourite beverages and even add your friends and family desired beverages too.

Customise your perfect cup every time: choose your preferred aroma, select your coffee quantity, select the amount of milk and enjoy.

easy maintenance

The maintenance process is even easier thanks to the automatic alerts within the intuitive display.

Additional support can also be provided through our complimentary De'Longhi Coffee Link App and dedicated educational YouTube channel.

REMOVABLE BREWING UNIT

The brewing unit can be completely removed providing access to internal parts for thorough cleaning. Easy to maintain, it can be simply rinsed with water.

EASY TO CLEAN DRIP TRAY

The drip tray has an easy clean design, the removable grid is dishwasher safe and the tray is simple to clean.

FOR A DEEP CLEAN

The milk carafe is simple to disassemble and all the parts can be placed in the dishwasher for a deep clean.

AUTOMATIC, EASY CLEAN CARAFE

To guarantee utmost hygiene, the carafe comes with an integrated CLEAN function: by activating the function after the beverage preparation, all parts in contact with milk are washed with hot water and steam.

ECAM 510.55.M
