

Product fiche according to Commission Delegated Regulation (EU) 392/2012

Trade Mark	AEG
Model	T75170AV, PNC916095256
Rated capacity in kg	7
Air vented or condenser tumble dryer	Air Vented
Energy efficiency class	
Energy consumption in kWh per year, based on 160 drying cycles of the standard cotton programme at full and partial load, and the consumption of the low-power modes. Actual energy consumption per cycle will depend on how the appliance is used.	
Automatic tumble drier or non-automatic tumble drier	Automatic
Energy consumption of the standard cotton programme at full load in kWh	3.9
Energy consumption of the standard cotton programme at partial load in kWh	2.35
Power consumption of the off-mode in W	
Power consumption in left-on mode in W	
Duration of the left on mode in minutes	
The 'standard cotton programme' used at full and partial load is the standard drying programme to which the information in the label and the fiche relates, this programme is suitable for drying normal wet cotton laundry and it is the most efficient programme in terms of energy consumption for cotton	-
Weighted programme time of the 'standard cotton programme at full and partial load' in minutes	
Programme time of the 'standard cotton programme at full load' in minutes	95
Programme time of the 'standard cotton programme at partial load' in minutes	70
Condensation efficiency class on a scale from G (least efficient) to A (most efficient)	-
Average condensation efficiency of the standard cotton programme at full load as a percentage	-
Average condensation efficiency of the standard cotton programme at partial load as a percentage	-
Weighted condensation efficiency for the 'standard cotton programme at full and partial load'	-
Sound power level in dB	
Built in appliance Y/N	No
